

SHIVPRASAD MAHADEV PATIL

Frontend Developer

Kolhapur, Maharashtra | 9921328928 | shivprasadpatil398@gmail.com | [shivprasad patil](#) | [shivprasad patil](#)

PROFILE SUMMARY

Frontend Developer with 11 months of hands-on internship experience in the MERN stack. Strong knowledge of HTML, CSS, JavaScript, React, and Next.js, with experience building responsive, user-friendly web applications. Skilled in creating reusable components, integrating REST APIs, and collaborating with backend teams. Passionate about writing clean code and continuously learning modern frontend technologies.

TECHNICAL SKILLS

Frontend : HTML5, CSS3,

JavaScript (ES6+), React.js,

Next.js, Bootstrap

State Management : Redux

Toolkit, Context API

Backend Basics : Node.js,

Express.js

Database : MongoDB

Tools : Git, GitHub, Chart.js,

Postman

EXPERIENCE

Ishwarya BI Technologies Pvt. Ltd

FRONTEND DEVELOPER (MERN STACK) | 2024-2025

- Developed and maintained 5+ responsive web modules using React, Next.js, HTML, CSS, and JavaScript.
- Integrated RESTful APIs to perform full CRUD operations, improving data handling efficiency.
- Collaborated with backend developers working on Node.js, Express.js, and MongoDB.
- Used Git and GitHub for version control, code reviews, and structured development workflows.
- Improved UI performance and fixed bugs, enhancing overall user experience.

PROJECTS

Portfolio Website :

Developed a responsive personal portfolio website using React, CSS, JavaScript, and Bootstrap to showcase projects and frontend skills.

CodeWonders (Company Project) :

Contributed to a company project by designing UI screens in Figma and developing responsive registration forms by converting designs into React-based interfaces. Integrated frontend forms with Node.js, Express, and MongoDB backend APIs.

E-Commerce Web Application :

Built a full-stack E-Commerce web application using React and Bootstrap for the frontend and Node.js, Express, and MongoDB for the backend. Implemented Context API for state management and created separate User and Admin models with role-based access and full CRUD functionality.

Gym Management System :

Developed a Gym Management System website with User and Trainer dashboards using HTML, CSS, JavaScript, Bootstrap, Node.js, Express, and MongoDB, including CRUD operations and secure API integration.
